

# Wireless Remote Control For Marine Lights!

## FEATURES:

Safe, One Person Operation

Control from inside or Outside the Vessel

Two Channel System

Hook up as many lights as you want!

Special Wire Harness Included

## AS-2003L

Patent# 6900603

Control your deck lights from outside your vessel!

Wireless Remote Control

Control your cockpit lights from 50-100 feet away!

## The Most Universal Wireless Control In The Marine Market!

Operate your marine lights from inside or outside your vessel! This remote is a "life saver" for the less mobile customers, and for the ones that simply love the convenience!

Simply hold down a button and let the Wireless Motor Control System operate your existing 12-Volt DC Light(s). Now there is no need to be restricted to one area to operate your lights.

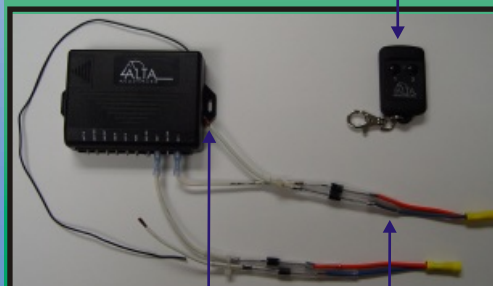

- Deck Lights
- Cockpit Lights
- Step Lights
- Spot / Harbor Lights

This convenient wireless system has two channels to connect to. You can have one light or a series of lights on each button.
